"Majestea"

Foundation European Masters in Food
all University and Company partners

February

Board meeting in Cork

July

Board meeting in Wageningen

By having a group of students of many different nationalities following classes at universities in four countries, an exposure to multicultural environments is emphasized and is part of the learning.

Among the 20 students who started in August 2014 we welcomed 13 nationalities of which three are new for the European Master programme: Austria, Kenya and South Africa.

In July 2015 we congratulated 21 new alumni of the European Master programme.

The European Master alumni network has 228 members now, all around the globe but forever connected.

Future:

- Continued focus on communication in order to support the recruitment of high calibre candidates for the European Master programme; in particular: a new website and a one week winter school;
- Wageningen University will continue as leading university for the next 4 years;

A two track approach on promotion is being taken. The first focuses on the content and design of the website and the second is attracting attention towards the website by blogs and daily messages on social media.

The European Master in Food Studies
 Are you ready for the education journey of your life?
